Subject: Price Canyon application for Safe Drinking Water Act exemption

Dear George

My name is Christine Molony and I live on the corner of Vetter Ln and Vista Grande Ln, which is down from the oil fields about 1 1/2 to 2 miles.

For years I have been experiencing an oil slick on my well water. I am afraid to drink it myself. Since I grow my own food and have livestock I am concerned about Freeport McMoRan getting an exemption from the Safe Drinking Water Act which will lead to more pollution of my and my neighbor's precious water source.

I oppose any exemption and believe they should be held accountable for the amounts of water already contaminated and made to stop any further pollution.

Respectfully,
Christine Molony
1564 Vista Grande Ln.
Arroyo Grande, CA 93420
